

More Than Words®

The Hanen Program®

for Parents of Children with Autism Spectrum Disorder and Related Social Communication Difficulties.

BubbleBee will be hosting the More Than Words® program for parents. Parents and immediate family members are the most important people in a child's life. One of the greatest gifts you can give your child is the help he or she needs to communicate and connect with the world. Often, children learn how to communicate with others at home by playing and participating in a family routines, meals and chores.

More Than Words® is a family-focused program that trains parents to help their child under six years of age learn to interact and communicate using naturally occurring everyday opportunities. The unique program was developed by The Hanen Centre (www.hanen.org) and is offered to parents only by a Hanen Certified Speech – Language Therapist who has received specialized training from The Hanen Centre.

BubbleBee's Speech Therapist Ms. Sheryl Lau is fully trained and certified in It Takes Two To Talk® The Hanen Program® for Parents of Children with Language Delays and More Than Words® The Hanen Program® for Parents of Children with Autism Spectrum Disorder. She will be running a free orientation session on
